6. Barracks installations were being installed in a woods, at Niederschlag zu Baerenstein, about 10 km south of Annaberg. From 1,100 to 1,200 soldiers with many dogs were quartered there. \*\*\* About 60 soldiers and some Soviet families were quartered at Ehrenfriedersdorf-Greifenstein.

25X1A \* Comment. The Melmert Factory reportedly quartered 300 men in October 1950. 25X1A

\*\*\* Comment. For location and layout sketch of the MVD Kaserne in Frohnau, see Annex. Including the MVD porsonnel quartered in the MVD Kaserne in Frohnau, MVD units stationed in the Annaberg area are believed to be of regimental strength. This is about the same numerical strength as was observed in Annaberg in September 1948.

\*\*\*\* Comment. It is believed that the soldiers reportedly located 25X1A in Crottendorf and Miederschlag belonged to the MVD.

I Annex: 1 - sketch on ditto.
